MARINE GRADE ODOR ELIMINATOR

Harness Natural Purifying Tea Tree Power®

- Just place the container in your cabin, head, or stateroom. Marine-Grade Tea Tree Power's® powerful vapors diffuse throughout your cabin and lockers to eliminate the unpleasant odors caused by mold, mildew, and bacteria.
- Tea Tree Power® evaporates and provides continuous, natural, and long-lasting odor control for up to 3 months.
- Marine-Grade Tea Tree Power® penetrates deep into porous materials - cushions, carpets, and upholstery – delivering a deep cleaning with enduring protection.
- Tea Tree Power® uses a proprietary blend of pure Tea Tree oils harvested, extracted, and distilled from Australian Tea Trees long recognized as nature's most powerful antiseptic, world-renowned for their purity and quality.

SAVES MONEY & PROTECTS YOUR BOAT AGAINST DAMAGE

Marine-Grade Tea Tree Power® Gel's container is designed to release powerful vapors over a long period of time for continuous, long-lasting protection in your galley, bilge, blackwater system pipe work, deck storage lockers, hanging lockers, lazarettes, chiller systems.

Not just a cover-up fragrance, Tea Tree Power® penetrates porous surfaces to neutralize and eliminate odors at their source. It prevents the damage to porous surfaces often associated with unpleasant odors.

TEA TREE POWER[®]

EASY AND POWERFUL

- Open the lid, remove the liner, replace the lid, and place on a flat surface. It evaporates and works fast and effectively.
- The semi-solid gel remains effective for up to thirty days and its residual effect can protect for up to forty-five days longer.
- Simply pop open, place, and go.

Sized to Fit Your Boat

- One 2 oz of power protects up to Approx. 20'
- One 4 oz of power protects Approx. 20 – 30'
- One 8 oz of power protects Approx. 35 – 45'
- One 8 oz of spray disinfects and protects all surfaces

How Tea Tree Oil is Made

Australian Melaleuca Alternifolia Tea Trees are harvested and their finely cut leaves and branches are steam distilled. The resulting oil and water mix is separated, producing 100% pure tea tree oil, which is cooled and bottled. The oil has a fresh, natural camphor-like odor which dissipates as it evaporates.

History of Tea Tree Oil

The Australian Aborigines in New South Wales used tea trees as a traditional medicine to heal wounds. Believing in its antiseptic qualities, they bathed in the marshy waters where the tea tree flourishes. Captain James Cook, the British explorer, coined the name "Tea Tree" when he observed these Aborigines brewing a tea with the leaves to treat coughs and sore throats. It is reported that his men adopted this practice of brewing this healing tea.

Little Known Fact about Tea Tree Leaves

Captain James Cook's men used the Tea Tree leaves to make beer!
