

LEISURE FURL®

BROUGHT BACK THE FUN OF SAILING

"The big main on our prior boat, a Sabre 42, was too much for my wife Kathy and I to handle, so we had a Leisure Furl boom installed. The ease of handling our main reignited our love of sailing. It eliminated the stress associated with reefing and dousing the big main.

With our new confidence we bought a bigger boat. Being able to furl the main from the cockpit keeps us in control and safe. Thanks Leisure Furl."
